- Responses to questions received from shareholders - Pre AGM and during AGM

No.	Question	Answer		
Strat	Strategy			
What is the Company's future outlook?		We are building CelcomDigi to be a progressive, forward-leaning and customer-centric organisation. This strong foundation combined with leveraging our widest network footprint, extensive distribution channels and partner ecosystem, wide range of innovative digital products and services, and superior customer experience will enable us to become the nation's top telco-tech company.		
		 Moving forward in our journey, achieving growth and profitability amid a challenging market environment remains a top priority, and our strategy to win is straightforward - cementing market leadership, institutionalising operational excellence, trusted and excited brand for Malaysians. 		
2.	Please explain how the merger of Digi and Celcom has benefitted the shareholders and what are the lessons from this merger?	 Shareholders able to benefit from the combination of scale, competencies, financial strengths and experience in serving the diverse needs of Malaysian consumers. We strengthened the potential yield of return from the strengthened core Telco position and ability to drive sustainable growth beyond core. 		
		Learnings amongst others: people integration needs to be done fast to run the company, hence we place it as top priority, completed our organisation design and putting in place top 400 leaders Don't lose sight of our customers — continue to be Customer Obsessed		
3.	Why CelcomDigi is not going for data centre business?	CelcomDigi is actively pursuing connectivity solutions opportunity with data center operators and enterprise customers with data center requirements. This is in line with our stature and ambition as the top Telco-Tech in Malaysia.		
		With regards to participating in the data center business, this will entail strategic evaluation exercise taking into account CelcomDigi's strategic ambition and synergy commitment, risk appetite and financial investment priorities.		
4.	Will the Board privatise CelcomDigi?	There is no such plan.		
5.	When will share price be above RM5.00?	 We are not able to predict the timing and movement in share price. We are putting strategic efforts to reach our vision in becoming Malaysia's top Telco-Tech company, transforming beyond connectivity to lead in digitalisation and innovation. We are committed to deliver returns to our shareholders. 		

Financial				
6.	Despite doubling of revenue in PAT, these gains are not reflected in EPS, which has grown from 10.4 sen to 13.2 sen only. Please explain why such increase is not reflected in EPS.	In FY2022, Digi issued 3,956 million new ordinary shares as part of purchase consideration to acquire 100% of issued share capital of Celcom Group from Axiata Group Berhad. Therefore, EPS in FY2022 is computed based on weighted average number of shares of 8,122 million while 2023 EPS is based on total number of shares of 11,732 million.		
7.	Why higher depreciation cost on assets and right use of assets? This further prove that company acquire less valuable assets and equipment to sustain business operation.	 Higher in FY2023 mainly due to results of the Group include Celcom's performance as it became a subsidiary on 30 November 2022, through the merger. In FY2022, only one month's portion from Celcom was added after the merger. Underlying increase attributable to revision in asset useful life from accounting policy harmonization and site rationalisation activities post-merger. 		
8.	Why door gift allocation diverted to fund director remuneration and medical expenses. This was evidenced from increase on staffs expenses and increase on non executive remuneration? Further noted that finance cost also escalate. It is widely believed that company leverage on borrowing to pay salary to the senior management.	 The directors' fee and benefits payable have been benchmarked with the market and only the Directors who are not employees of Telenor Group or Axiata Group are entitled to receive director's fee and benefits payable. Higher finance costs in FY2023 were due: Results of the Group in FY2023 include Celcom's performance where else for FY2022, the results comprise only one month's portion from Celcom New borrowings to finance the acquisition of Celcom group as well as to fund capex investments. Free cash flow, driven by disciplined cost and working capital management, was robust and healthy, closed full year at RM2,298 million 		
9.	How is interest rate cut affect company business?	 The last increase in the Overnight Policy Rate ("OPR") was in May 2023, bringing the rate to 3.00% and remains at this level to date. We manage our interest rate risk by having an optimal mix of fixed and floating-rate debts. Any rate cut will improve our finance cost on the floating-rate debt. 		
10.	How is inflation affecting company business?	 As per BNM (Bank Negara Malaysia) Malaysia's report, headline inflation remained moderate at 1.7% in Q1'2024 vs. Q4 2023 at 1.6%. Whilst we closely monitor the impact of our nation's inflation to citizens and our customers, we remain committed to continue to provide the best connectivity at the right value for our customers. 		
11.	When is the company paying dividend and distribute treasury shares?	We remain committed with our dividend policy of distributing minimum 80% of our PAT, to be paid on quarterly basis.		

Operational			
12.	How does the shutting down of Yoodo services affect the company's financials and what is the plan for the existing employees of Yoodo? Is there a VSS being offered following the merger? If yes, how much likely to be incurred for such exercise? How many	 CelcomDigi is not expected to have any material impact arising from the discontinuation of Yoodo brand. Yoodo was a very good example of trying to do things differently as a business. We are very proud of the team and all they have accomplished in the last 6 years. We believe the experiences, learnings, and competencies developed in operating Yoodo will contribute positively to CelcomDigi's future growth moving forward. In view of this, all Yoodo employees will be transitioned back to CelcomDigi to take on new opportunities within the company. Their return will fuel our next-generation talent pipeline, CDzens with skills and competencies required to push ahead with our Telco-Tech ambitions. We look forward to welcoming the team. We offered VSS program in Q1 2024, purely on voluntary basis and subject to Management's acceptance. Approximately 600 employees have been accepted. 	
	workforce CDB seeking to rationalise?	 The VSS is a one-off program and will not be undertaken further in FY2024. CelcomDigi recognised RM139 million in Q1 2024 for the VSS. 	
14.	How many subscribers have CDB lost to other mobile operators as a result of network disruptions or poor coverage during the network modernisation exercise?	 We continue to monitor our customer experience and feedback. We prioritise to mitigate and minimize network disruption, however, from time to time, we do encounter issues due to sudden spike of users as well as device related issue. Our integration efforts centred around uplifting customer experience which resulted in customers enjoying improved download speeds between 20% - 26%, better signal strength between 13% - 16% in the post-consolidation area and reduction of customer complaints by 69%. Consequently, we continue to have subscribers growth Y-Y of 466k, serving 20.5 million subscribers nationwide. 	
15.	How is the DEI (Diversity, Equity & Inclusiveness) of Malaysian racial mosaic reflected in the employee composition of the group?	We have some employees with physical limitations and we have ensured that the working environment is inclusive for these colleagues.	
16.	Appreciate if your side could provide the following information: a) Details regarding the duration of PwC's tenure as auditor for your company b) Any policies in place regarding the rotation of	 a) PwC has been the incumbent auditor of Celcom (Pre-merger) since 2008, and the auditor for Celcom's consolidation & Celcom's entities Post merger in 2023. b) We follow by the rotation of audit partners of the audit firms, which we believe is the best practice and to the best interest of CelcomDigi. The partners are rotated every 7 years to ensure independence of the audit. 	

mainly CDB providing services for other opcos? 18. RRPT with Khazanah – What is the disposal of scrap for? 19. From CG Report 2023, we take note that CelcomDigi departs from practice 5.2 where the board only consists of 40% independent non-executive directors. We appreciate if you can provide us with insights on any plan (if any) to increase the composition of independent non-executive directors to more than 50%. 19. How many terms can Directors The Board Nomination and Remuneration Committee will continue to review the composition of planning for retiring directors?
